

			Bill of Material	QTY
 The technical drawing illustrates the construction of a pallet from three perspectives: top, side, and end views. The top view shows a rectangular layout with a total length of 1200mm and a width of 800mm. It features 10 longitudinal planks, each 100mm wide, with 8mm gaps between them. The side view shows the profile of the planks, which are 18mm thick. The end view shows the arrangement of 4 transverse planks, each 100mm wide, with 8mm gaps, and 9 blocks, each 100x80x80mm, supporting the structure. A 22mm dimension is also indicated for a specific part of the end view.			Planks 1200x80x18 Planks 1200x100x18 Planks 800x100x22 Block 100x80x80	04 06 03 09
